

WHAT IS RYSE®?

RYSE® is a new energy modality that helps you clear the blocks in your energy field allowing you to experience more clarity, awareness and the ability to manifest your desires more quickly and easily.

Created by Nancy Risley, RYSE® is a life-changing experience based on this simple yet profound concept; we can perceive and affect our sublime energy systems through focused awareness. This takes place in 4 parts:

RYSE 1 - Education and clearing of chakras, aura, ida and pingala, air pattern, inner male and inner female, accessing the blueprint of your highest potential.

RYSE 2 - Second level clearing and alignment of previous work plus the relationship of your sublime energy systems to your life force, holding your power, perceiving your energy system health, clearing cellular memories, expectation release work, and additional techniques for aligning with your highest potential.

RYSE 3 - Enhancing your life force, holding your power and third level clearing of primary systems in preparation for deeper work on clearing your energy systems. Includes clearing the energy systems of all developmental cycles and sub personalities. Focus on highest potential and fulfillment of the blueprint.

RYSE 4 - Fourth level clearing on primary patterns and continuation of how you hold your life force. Clearing and aligning the energy systems for fulfillment of highest potential and energy-based solution work. Focus on the refinement of skills in dynamic control of personal energy systems to increase your life force and personal power.
